SETTLEMENT AGREEMENT

This settlement agreement (the "Settlement Agreement") is entered into by and between Disability Rights New Jersey, the Education Law Center, the Statewide Parent Advocacy Network and The Arc of New Jersey (collectively, "Plaintiffs") and the New Jersey Department of Education, the Commissioner of Education, in his official capacity, and the New Jersey State Board of Education (collectively, "Defendants" or "NJDOE") (and, together with Plaintiffs, "the Parties"), with approval of the Court.

This matter involves claims by Plaintiffs that children with disabilities in New Jersey schools are not being educated in the least restrictive environment ("LRE"), in violation of the Individuals with Disabilities Education Act ("IDEA"), 20 U.S.C. §1400, *et seq.*, and its implementing regulations, 34 C.F.R. §300.1, *et seq.* and N.J.A.C. 6A:14-1.1, *et seq.*, New Jersey's Special Education Statute, N.J.S.A. 18A:46-1, *et seq.*, and Section 504 of the Rehabilitation Act, 29 U.S.C. § 794 ("Plaintiffs' claims"). While the Parties have differing views regarding Plaintiffs' claims, they have agreed that a negotiated settlement of this matter is desirable. As such, this Settlement Agreement provides for the resolution and termination of this

litigation. It follows several years of litigation and discovery conducted by the Parties, and extensive negotiations between the Parties regarding the terms of settlement.

This Settlement Agreement shall be effective and binding, commencing the date on which it is signed by the District Court, and shall expire on the date on which NJDOE provides the Stakeholders the results of the Final LRE Monitoring report for each district, pursuant to Section F. Upon execution of this Settlement Agreement, the claims against Defendants will be dismissed with prejudice.

**Section A. Needs Assessment**

1. NJDOE will administer the Least Restrictive Environment Needs Assessment (hereinafter "LRE Needs Assessment"), attached hereto as Exhibit A, to each of the school districts listed in Exhibits B, C, and D to this Agreement (the "Designated Districts"). The LRE Needs Assessment will commence in September 2014 and will be completed by December 31, 2014.

2. NJDOE will provide (1) the written results of Steps 1 and 2 of the LRE Needs Assessment; and (2) a written summary of patterns of need identified through Steps 3 and 4 of the LRE Needs Assessment ("summary of patterns"), to the Stakeholder Committee (defined below in Section J) by no later than January 15, 2015. Within 21 days of NJDOE having provided the results of Steps 1 and 2 and the summary of patterns of all of the Designated Districts' LRE Needs Assessments to the Stakeholder Committee, NJDOE will hold a meeting with the Stakeholder Committee, at which time the Stakeholder Committee and NJDOE will discuss verbally any non-binding feedback provided to NJDOE by the Stakeholder Committee regarding the Designated Districts' "Areas of Need" as defined in Sections B.2, B.3., and B.4 in the Year One Annual Training and Technical Assistance Plans (defined below in Section B.1). NJDOE shall, in good faith, consider any feedback it receives from the Stakeholder Committee and implement such feedback as deemed appropriate by NJDOE.

10. If any Designated District is identified as being Non-Compliant on Exhibits B, C, or D hereto as a result of the Year One or Year Two Monitoring (as defined below in Section F), or is found to be Non-Compliant with respect to LRE requirements as a result of an NJDOE Complaint Investigation, NJDOE shall require the Non-Compliant District to a) direct certain general education teachers and child study team members (to be identified by NJDOE) to attend at least three of the four LRE Trainings and Technical Assistance sessions, b) direct all special education directors and supervisors, all building principals and all teachers in supervisory roles (including “academic department chairs,” “lead teachers,” “deans,” and “team leaders” if they supervise teachers) to attend at least one training and technical assistance session; c) direct certain district personnel (to be identified by NJDOE) to view the Annual Webinar (as defined in Section D), d) provide a “Statement of Assurance” that appropriate district staff attended the LRE trainings and technical assistance sessions and the Annual Webinar, and e) establish a District LRE Facilitator (as defined below in Section H).

11. LRE Training and Technical Assistance may be conducted by employees of NJDOE or by outside vendors independent of NJDOE and independent of New Jersey school districts.

12. LRE Training may be provided to Designated Districts individually or may be provided in multi-district sessions. The Technical Assistance will always be district-specific and provided to Designated Districts individually.

13. Each LRE Training and Technical Assistance shall be at least three (3) hours long.

14. Representatives of parent groups within the district, including parent members of district special education parent advisory groups, shall be invited to at least one LRE Training. Parental attendance is not mandatory. NJDOE will advise the Stakeholder Committee that it may attend the LRE Training to which parent members of district Special Education Parent Advisory Groups are invited, as well as any LRE Training provided in a multi-district setting.

15. NJDOE shall provide the Year Two and Year Three Training and Technical Assistance Plans to the Stakeholder Committee no later than June 15 of 2016 and 2017.

**Section C. State Inclusion Facilitators**

1. For the Designated Districts not identified as non-compliant, NJDOE will make available one or more NJDOE employees who are trained in inclusive practices and who have experience in providing training and/or technical assistance to districts regarding implementation of federal and state requirements and best practices with regard to placement of students in the LRE ("State Inclusion Facilitators"). The State Inclusion Facilitators will, on a monthly basis, contact each Designated District which has not been identified as Non-Compliant for purposes of this Settlement Agreement ("compliant Designated District"), and offer to provide assistance, including on-site assistance, if appropriate, regarding any LRE issues, and shall raise with the Designated Districts any LRE issues of which NJDOE has become aware. The State Inclusion Facilitators will provide on-site assistance pursuant to this provision to each compliant Designated District that requests it, not to annually exceed a combined total of on-site visits numbering five times the number of compliant Designated Districts for the given year.

**Section D. Annual Webinars**

1. In addition to the LRE Training and Technical Assistance, NJDOE shall, in the 2015-16, 2016-17, and 2017-18 school years, identify an area for LRE Training (based on the Needs Assessments and formal and informal monitoring by NJDOE) that benefits all of the Designated Districts, and create at least one interactive web-based training session of not less than one (1) hour's duration (the "Annual Webinar"). For purposes of this Settlement Agreement, "interactive" shall mean that, at least at the time of its initial presentation, the Annual Webinar shall be "live" and provide an opportunity for viewers to ask questions and receive responses. NJDOE will make available for viewing on its website by educators statewide a version of the

interactive Annual Webinar including, as deemed appropriate by NJDOE, public comments and/or questions.

2. NJDOE will inform all compliant Designated Districts that the Annual Webinar is available for viewing and recommend that district personnel view each Annual Webinar.

3. On the date that NJDOE meets with the Stakeholder Committee pursuant to Sections A.2 and F.4, NJDOE will provide the Stakeholder Committee with the proposed topics and content of the webinars and discuss verbally any non-binding feedback provided to NJDOE by the Stakeholder Committee regarding the topics and content of the Annual Webinar. NJDOE shall, in good faith, consider any feedback it receives from the Stakeholder Committee, discuss the feedback with the Stakeholder Committee at the Stakeholder meeting and implement such feedback as deemed appropriate by NJDOE.

#### **Section E. Professional Development Evaluation**

1. NJDOE will administer a survey to each individual participant in the LRE Trainings and Technical Assistance that occur under this Settlement Agreement (the "Professional Development Evaluation") at the end of each LRE Training and Technical Assistance session. The form of the Professional Development Evaluation is attached hereto as Exhibit F. NJDOE shall distribute the forms to the participants and then collect them prior to the end of each LRE Training and Technical Assistance session.

2. NJDOE shall provide an electronic or hard copy of the completed Professional Development Evaluations to the Stakeholder Committee for review within thirty (30) days after NJDOE's receipt of same. NJDOE shall, in good faith, consider any non-binding feedback it receives from the Stakeholder Committee, discuss the feedback with the Stakeholder Committee at the Stakeholder meeting and implement such feedback as deemed appropriate by NJDOE.

**Section F. Annual Compliance Monitoring**

1. Between October and February of the 2015-2016 and 2016-2017 school years during the Settlement Period in which NJDOE provides LRE Training and Technical Assistance to the Designated Districts, NJDOE shall monitor each compliant Designated District. For purposes of this Settlement Agreement, such monitoring shall be referred to as “Year One Monitoring” and “Year Two Monitoring.”

2. The Year One Monitoring and Year Two Monitoring shall determine compliance with the LRE requirements as set forth in N.J.A.C. 6A:14-9.1, utilizing the monitoring protocol annexed as Exhibit G.

3. NJDOE shall provide a copy of the completed Year One and Year Two LRE Monitoring Reports for each Designated District to the Stakeholder Committee no later than March 15 of 2016 and 2017.

4. Within 21 days of NJDOE having provided the Year One and Year Two Monitoring Reports to the Stakeholder Committee pursuant to Section F.3, NJDOE will hold a meeting with the Stakeholder Committee at which time NJDOE will discuss verbally any non-binding feedback provided to NJDOE by the Stakeholder Committee regarding the Areas of Need to be addressed in the Year Two and Year Three Training and Technical Assistance Plans based on results of the Monitoring Reports. NJDOE shall, in good faith, consider any feedback it receives from the Stakeholder Committee and implement such feedback as deemed appropriate by NJDOE.

**Section G. Final Monitoring**

1. At the conclusion of the Year Three Training and Technical Assistance, NJDOE shall monitor each Designated District to determine compliance with the LRE requirements as set forth in N.J.A.C. 6A:14-4.2, utilizing the monitoring protocol annexed as Exhibit G. NJDOE

shall provide to the Stakeholders a copy of the Final LRE Monitoring reports for each Designated District within 10 days of issuance. The Settlement Agreement expires immediately upon NJDOE providing the Stakeholders a copy of the Final LRE Monitoring reports for each Designated District, notwithstanding the outcome.

**Section H. District LRE Facilitators**

1. In July 2015, NJDOE shall direct each Designated District that is identified as a Non-Compliant District on Exhibits B, C or D, or which was determined to be Non-Compliant with respect to LRE requirements during the prior academic year as a result of an NJDOE complaint investigation, to designate at least one (1) teacher, child study team member or administrator, who is knowledgeable about LRE (the "District LRE Facilitator"), to be a resource person for, and to provide technical assistance to, other district staff members regarding LRE during the Settlement Period. The Designated District may contract with an experienced inclusion/LRE expert to perform this function.

2. If any Designated District should be identified as a Non-Compliant District as a result of the Year One or Year Two Monitoring, NJDOE shall direct that Designated District to designate at least one (1) District LRE Facilitator in the manner set forth in Paragraph H-1, above.

**Section I. Training of Complaint Investigators**

1. NJDOE will contract with Anne Louise Thompson to provide one full day of mandatory LRE training to all complaint investigators employed as of the date of the training. The LRE training will take place prior to the commencement of the 2015-16 school year.

**Section J. Stakeholder Committee**

1. The Parties have formed a committee comprised of seven (7) members (the "Stakeholder Committee"), which is a subcommittee of New Jersey's IDEA-mandated

stakeholder group ("NJDOE Stakeholders Group"). A list of initial Stakeholder Committee members is attached hereto as Exhibit E.

2. In the event that any member of the Stakeholder Committee resigns during the Settlement Period, the Parties will agree upon his or her replacement.

**Section K. Parental Input**

1. When NJDOE monitors the Designated Districts in accordance with this Settlement Agreement, it will contact the Designated Districts' special education advisory groups, and will offer to talk with a random sample of 20 parents of students who represent a variety of placements, disability categories, racial/ethnic groups and grade levels.

**Section L. Attorneys' Fees and Costs**

1. NJDOE agrees to pay attorneys' fees in the amount of \$295,000 for the services of Plaintiffs' counsel reasonably necessary to the resolution of this matter through the date of this Settlement Agreement, payable to the Education Law Center within sixty (60) days of the filing of this Settlement Agreement by the Court.

2. Other than the fee specified in paragraph 1 of this Section, no Party shall be entitled to recover or charge any attorneys' fees or costs against any other Party, except as a prevailing party on an application to enforce a provision of this Settlement Agreement and only upon order of the Court.

**Section M. Savings and Severability**

1. In the event that any provision of this Settlement Agreement is deemed unconstitutional by a court or other body having been delegated the authority to make such a judgment, then that provision shall be void, of no effect, and unenforceable as a term of this Settlement Agreement and NJDOE shall not be required to provide any funding to otherwise implement any such provisions.

2. The unenforceability of any provision of this Settlement Agreement shall not affect any other provision of this Settlement Agreement, and this Settlement Agreement shall be construed as if the offending provision had never been contained herein.

**Section N. Modification of Agreement**

1. The provisions of this Settlement Agreement may be modified during the term of the Settlement Agreement only upon agreement of both parties.

**Section O. Entire Agreement**

1. This Settlement Agreement constitutes the entire agreement between the Parties and supersedes any prior understanding or representation of any kind preceding the date of its execution.

2. There are no other promises, conditions, understandings, contracts or other agreements, whether oral or written, relating to the subject matter of this Settlement Agreement.

**Section P. General Release of Claims**

1. It is expressly understood and agreed upon by each of the Parties that this Settlement Agreement constitutes a complete and final general Release between the Parties with respect to any and all past and present liabilities, claims, demands, rights and causes of action, guarantees, claims for damages, settlements, costs, attorneys' fees, and compensation of any kind or nature whatsoever (whether derivative or individual in nature), in connection with or arising out of Plaintiffs' claims.

2. In return for the consideration set forth in Sections A through L of this Settlement Agreement, Plaintiffs on behalf of themselves and on behalf of the individuals on whose behalf Plaintiffs filed the instant action as identified in Paragraph 1 of the Amended Complaint filed July 10, 2009, do knowingly and voluntarily, completely and forever, release and discharge Defendants, and each of Defendants' present and former employees, officers, agents, and

representatives, and any successors of Defendants, from any and all claims, causes of action, judgments, obligations or liabilities of whatever kind and character, raised in the Amended Complaint filed July 10, 2009; and any claim for compensatory damages, liquidated damages, punitive damages, damages for emotional distress, pre- or post-judgment interest related to those claims.

3. Nothing in this Settlement Agreement shall be construed to limit the rights of individuals' on whose behalf DRNJ has filed this action to pursue any action against Defendants or against any local school district. Nothing in this Settlement Agreement shall be construed to limit Plaintiffs' pursuit of any action currently pending against Defendants, other than Plaintiffs' claims in this action. Nothing shall be construed to limit Plaintiffs' right to pursue any claims not raised in the Amended Complaint.

4. Plaintiffs agree that they will not fund any lawsuit brought by an individual or organization that asserts the same claims raised by Plaintiffs in the Amended Complaint.

**Exhibit A**

**FORM OF LRE NEEDS ASSESSMENT (attached hereto)**

**New Jersey  
Department of Education  
Office of Special Education Programs  
Targeted Review**

**Least Restrictive Environment (LRE) Needs Assessment**

When an Individualized Education Program (IEP) team is deciding where a student will receive their special education services, the Individuals with Disabilities Education Act (IDEA) requires the team consider placement in the general education classroom, in the school the student would attend if he or she did not have a disability, FIRST, before considering placement in a more restrictive setting. The IEP team must discuss an array of supplementary aids and services that could be provided in the general education classroom before discussing removing the child to a special education class or program. If the IEP can be implemented in the general education classroom in the student's home school, with appropriate supports and services, then that is the least restrictive environment for that student. It is important that every school district regularly review student-level, school and district performance and placement data, and procedures for developing IEPs for students, to ensure that students with IEPs are educated in general education settings, with appropriate supports, as much as possible.

The New Jersey Department of Education, Office of Special Education Programs (NJDOE), has conducted a data review and identified districts with a high percentage of students educated outside general education settings for an LRE Targeted Review. As part of the targeted review, the identified districts are required to participate in this needs assessment to determine the impact of their policies, procedures and instructional programs on the placement of students with disabilities. Results of the needs assessment will inform district actions and address those areas that limit the district's ability to educate students in less restrictive settings. Once a targeted district completes the data review and analysis and the LRE Questionnaire, and NJDOE completes its classroom observations and staff and parent interviews, NJDOE staff will meet with staff from the district and a training and technical assistance plan will be developed.

The identified school districts must use this LRE Needs Assessment tool to analyze placement patterns, as well as programs, practices and policies that impact placement patterns, and identify action steps to enhance supports in general education classrooms for students with disabilities.

The needs assessment consists of five steps:

**Step 1:** A review and analysis of placement data by district personnel.

**Step 2:** Completion of the Least Restrictive Environment (LRE) Questionnaire by:

- i. District-wide administrators and
- ii. District personnel in individual schools identified during the data review.

**Step 3:** A site visit of identified schools conducted by NJDOE staff that includes:

- i. Classroom observations using the attached Classroom Walkthrough protocol
- ii. Interviews with special and general education teachers, administrators, CST members, and parents using the attached Interview Question protocol

**Step 4:** Meeting conducted by NJDOE staff with district personnel to discuss:

- i. Data trends
- ii. LRE Questionnaire findings
- iii. Interview results
- iv. Classroom observation findings
- v. Current Long Range Facilities Plan

**Step 5:** Development of a training and technical assistance plan by NJDOE staff based on the results of Steps 1-4, above.

## **Step 1: Data Review and Analysis**

### **A. Review Data Charts**

NJDOE will provide the district with the placement data reported by the district in NJSMART in October 2011 and October 2012.

#### **i. Students Ages 6-21**

The district will review for accuracy the NJSMART data referenced above, for students ages 6-21, and compare the data to the current district data for the same years. The district will compare the 2012 rates to the State Performance Plan (SPP) targets for 2012-2013 for the following categories:

80% or more of the day in general education: If the district placement rate of students with IEPs in general education for more than 80% of the school day, reported in the 2012-2013 NJSMART data, is **less than** NJDOE's statewide annual target for that year, the district must identify areas of need as a result of the data review and LRE Questionnaire.

Placement in segregated settings<sup>1</sup>: If the district placement rate of students with IEPs in segregated settings reported in the 2012-2013 NJSMART data is **greater than** NJDOE's statewide annual target for that year, the district must identify areas of need as a result of the data review and LRE Questionnaire.

#### **ii. Students ages 3-5**

The district will review for accuracy the NJSMART data referenced above, for students ages 3-5, and compare the data to the current district data for the same years. The district will compare the 2012 rates to the SPP targets for 2012-2013 for the following category.

---

<sup>1</sup> As defined by the United States Department of Education in the State Performance Plan, segregated settings include: in separate schools, residential placements, or homebound/hospital placements.

Attending a separate special education class, separate special education school or residential facility: If the district placement rate for this category for 2012-2013 is **greater than** NJDOE's statewide target for 2012-2013, the district must identify areas of need as a result of the data review and LRE Questionnaire.

### **B. Analyze Ages 6-21 Placement Patterns from Data Tables**

Analyze the classification and placement data at the district level and at the attending/sending school level for students with IEPs ages 6 through 21 for the 2011-2012 and 2012-2013 school years by age and grade range, disability category, gender, and specific racial/ethnic groups, as well as case manager, for the following placement categories:

- In general education class for 80% of the day or more;
- In general education class less than 40% of the day; and
- Educated in separate public or private schools.

### **C. Analyze Ages 3-5 Placement Patterns from Data Tables**

Analyze the classification and placement data at the district level and at the attending/sending school level for students age 3-5 for the 2011-2012 and 2012-2013 school years by age, disability category, gender and specific racial/ethnic groups, as well as case manager, for the following placement categories:

- In early childhood general education settings;
- In early childhood special education settings; and
- In separate public and private schools.

### **D. Identify Placement Trends**

Review classification and placement trends (from NJSMART data for the 2011-2012 and 2012-2013 school years) at the district level and at the attending/sending school level across all grade levels, disability category, gender, specific racial/ethnic groups and case managers to determine patterns of placement (e.g. 75% of students placed in separate private or public settings were male students with behavioral challenges; 100% of preschoolers with Autism were placed in separate settings).

**E. Analyze Program Needs:**

Review programs offered for a) students placed out-of-district in separate schools and b) students in district in special class programs, and compare those programs to all programs available within the district to identify possible opportunities to expand programs available within the district to serve children in the general education classroom in neighborhood schools. Review the following program components:

- Qualified and Effective Teachers
- Student/Teacher Ratio
- Program Curriculum
- Assistive Technology
- Interventions and Supports
- Related Services
- Facilities

## Step 2: Least Restrictive Environment (LRE) Questionnaire

**Directions:**

- Read each question and rate the response 1-Not implementing at this time, 2- In exploratory stage, 3- Partial implementation, or 4-Full implementation.
- For those questions that are answered 3- Partial implementation, or 4-Full implementation, the district must identify documentation demonstrating evidence of support in the appropriate column. Any identified evidence shall be made available for on-site inspection.

**Part 1- DISTRICT**

Standard	1	2	3	4	Identify which of the below supporting evidence was used to determine the rating for each standard:
<p><b>1.0</b> The district supports a system that reflects high expectations for all students through:</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> A data maintenance system that provides a comprehensive data profile including student growth percentiles for all students.</li> <li><input checked="" type="checkbox"/> A system of professional development and technical assistance on the use of student data for educational planning and decision-making.</li> </ul>					<ul style="list-style-type: none"> <li>• District data profiles</li> <li>• District data maintenance system</li> <li>• Professional Development Plans and attendance lists</li> <li>• Staff meeting agendas</li> <li>• Evidence that data are used to discuss changes in placement, curriculum and instruction of special education students, for example, minutes of staff meetings _____</li> <li>• Data reports on performance trends</li> <li>• Data reports on placement trends</li> <li>• Evidence that data are used to inform instruction</li> <li>• Other _____</li> </ul>

**(Highlighted questions are mandatory)**

<b>Part 4 – General Education Teachers</b>		<b>Response</b>
<b>4.1</b>	Do you have access to the IEPs of the special education students whom you teach? If so, how are you provided access to student IEPs? If not, why not?	
<b>4.2</b>	How do you use the information in the IEP to guide instruction for students with disabilities?	
<b>4.3</b>	Do you differentiate instruction and/or adapt the general education curriculum, instruction and materials for students with disabilities in your class, including students who are more than two years below grade level? If so, how do you differentiate instruction and/or adapt it? How do you utilize Universal Design for Learning, scaffolds and multi-level curricula when adapting curriculum? If you do not differentiate instruction or adapt the general education curriculum and materials for students with disabilities in your class, is someone else, such as a special education teacher, responsible for adapting the curriculum and materials?	
<b>4.4</b>	In your classes where students with disabilities are placed, is there a special education teacher assigned to work with them? If so, what is his or her role in instructing your students? Do the students with disabilities who are assigned to your classes have a paraprofessional or aide to work with them? If so, what is the role of the paraprofessional or aide?	
<b>4.5</b>	How would you describe the role of the special education teacher in educating students with disabilities in your class?	
<b>4.6</b>	Do you collaborate with the special education teacher to help modify curriculum, instruction and assessment in order to implement student programs? If so, how do you collaborate and how much time, on average, do you spend collaborating with the special education teacher each week?	
<b>4.7</b>	Are you provided an opportunity to discuss the student's successes and challenges in your class during the IEP team meetings? If you do not attend the IEP Team meetings, how do you provide your input to the IEP Team?	

4.8	What are the consequences if you do not implement an IEP?	
4.9	Are the supplementary aids and services included in the IEP necessary for the students' progress in general education class provided to the student? What do you do if you believe that a student requires different supports from those that are set forth in the current IEP?	
4.10	How do you monitor the progress of students with IEPs in the general education curriculum?	
4.11	Do the IEPs include the appropriate goals, supports, and services to meet the educational needs of students with disabilities in your class?	
4.12	Is there a school-wide positive behavioral support plan?	
4.13	Do any of your students with disabilities have behavioral intervention plans? If so, are you implementing the plans? If you are not responsible for implementing the plans, who has that responsibility?	
4.14	What professional development have you received regarding how to differentiate instruction and modify the curriculum in your classroom? Did that professional development include training in how to differentiate instruction for students who are more than two years below grade level?	
4.15	What professional development have you received regarding how to provide positive behavioral supports for students who have behaviors that interfere with learning?	
4.16	Have you had professional development on how to deescalate negative and aggressive student behavior?	
4.17	How do you participate in determining the kinds of training and technical assistance needed to support students with disabilities in general education classes?

<b>Part 5 – Special Education Teachers</b>		<b>Response</b>
<b>5.1</b>	Explain how the students with disabilities for whom you have responsibility participate in the general education class to the maximum extent possible.	
<b>5.2</b>	What opportunities are provided to students with disabilities to participate in extracurricular and nonacademic activities with children without disabilities? Which supports, services and accommodations, if any, are provided to those students?	
<b>5.3</b>	How are you and related services personnel working together toward meeting the measurable annual goals in your students' IEPs?	
<b>5.4</b>	If you work in the general education classroom with general education teachers, how is the responsibility for implementing IEPs shared between the general education teachers and the special education teachers?	
<b>5.5</b>	How are the supplementary aids and services in the IEPs identified in order to promote the students' progress in the general education curriculum?	
<b>5.6</b>	Who assists in the oversight of the type and amount of instruction as well as the supports and related services stipulated in the IEPs?	
<b>5.7</b>	What supports do you provide to general education teachers to assist them with the delivery of instruction, supports and services as required in the IEPs? Do these supports include strategies for differentiating instruction, Universal Design for Learning, scaffolds, multi-level curricula or other means (please specify) to adapt curriculum, including for students who are two or more years below grade level?	
<b>5.8</b>	What support do you provide to general education teachers to assist them with implementing a student's behavior intervention plan?	
<b>5.9</b>	Are students provided the supports and services required in their IEPs to participate with non-disabled peers in all areas of the general education curriculum?	
<b>5.10</b>	What specific supplementary aids and services are provided to students with disabilities in order to ensure their fullest participation with non-disabled peers?	

<b>5.11</b>	Do you participate in determining the kinds of training and technical assistance needed to support students with disabilities in general education classes? If so, how do you participate?	
<b>5.12</b>	Do you collaborate with general education teachers to identify training needs related to the provision of supplementary aids and services to students with disabilities in the general education setting? If so, how do you collaborate?	
<b>5.13</b>	Do you have access to general education resources and materials?	
<b>5.14</b>	Have you received professional development in the model curriculum, the Core Curriculum Content Standards (CCCS) and the aligned scope and sequence of the district core general education curriculum for your content area?	
<b>5.15</b>	Do you have ongoing communication with building-level administrators?	
<b>5.16</b>	Do you participate in building-level activities?	
<b>5.17</b>	Do you participate as a member of the general education team for your grade level and/or your content area?	
<b>5.18</b>	In which ways do you differentiate instruction? Do you and the general education teacher(s) collaborate on differentiation of instruction?	
<b>5.19</b>	Have you adapted curriculum, instruction and materials to serve the needs of students with disabilities on your caseload? If so, in which ways have you adapted them? Is someone else responsible for adapting and modifying curriculum and instruction for those students? If so, who is responsible?	
<b>5.20</b>	Which modes of co-teaching, if any, do you utilize?	
<b>5.21</b>	Do you feel that your district fosters a climate of collaboration between general and special education?	
<b>5.22</b>	Does your district provide you with the opportunity to collaborate with general education teachers, including time for lesson planning and development, creating assessments, vertical and horizontal articulation, curriculum review and refinement and review of student data?	
<b>5.23</b>	Do you feel that your district fosters a climate of acceptance of, and high expectations for, all students, including students with disabilities? How is this climate demonstrated?	

5.24	Is district leadership committed to supporting teachers in providing services to students with disabilities in general education classes to the maximum extent appropriate?	
5.25	Does your school principal promote the acceptance of, and high expectations for, students with disabilities? How is this demonstrated?	
5.26	Are you included in professional learning communities together with general education teachers?

5.30	What initiatives are in place in your school that demonstrate an inclusive school culture? How can that culture be enhanced?	

<b>Part 6 – Child Study Team Members</b>		
<b>6.1</b>	Describe the process for determining the program and placement of student with disabilities during an IEP team meeting? What role, if any, do administrators have in determining the program and placement of student with disabilities?	
<b>6.2</b>	What supplementary aids and services and other supports are available to students with disabilities? How do you explain to parents what supplementary aids and services can be provided in general education classes, and the legal requirement that students cannot be removed from general education classes if their education in those classes can be achieved satisfactorily with supplementary aids and services?	
<b>6.3</b>	What is your role in supporting general education teachers and special education teachers in implementing the IEPs of students with disabilities?	
<b>6.4</b>	Do you participate in planning discussions and committees about new curricula, assessment, academic and behavioral interventions, discipline policies and other program initiatives within the building, together with general education teachers and other student support staff?	
<b>6.5</b>	What initiatives are in place in your school that demonstrate an inclusive school culture? How can that culture be enhanced?	

<b>Part 7 – Administrators</b>		
7.1	What initiatives are in place in your school that demonstrate an inclusive school culture? How can that culture be enhanced?	
7.2	<p>Do administrators ensure that supports contained in IEPs are provided for students with disabilities by:</p> <ul style="list-style-type: none"> <li>a. observing classrooms periodically to see that adaptations and supports are being implemented;</li> <li>b. obtaining appropriate curriculum materials for students with disabilities;</li> <li>c. reviewing documentation kept by teaching staff on the use and effectiveness of IEP supports; and</li> <li>d. meeting with teachers to discuss student progress regarding IEP goals and objectives?</li> </ul>	
7.3	<p>Does the district support the placement of students with disabilities in the least restrictive environment by providing:</p> <ul style="list-style-type: none"> <li>a. professional development for general and special education staff, including teacher aides;</li> <li>b. scheduled collaborative planning time for general and special education staff;</li> <li>c. positive behavioral support programs for students with behavioral challenges; and</li> <li>d. assistive technology?</li> </ul> <p>What role, if any, do administrators have in determining the program and placement of students with disabilities?</p>	
7.4	How does the district support general and special education teachers to assist them with the delivery of instruction, supports and services as required in the IEPs?	
7.5	What professional development opportunities are available to special and general education teachers in the areas of differentiated instruction, Universal Design for Learning and scaffolding?	

<b>Part 8 – Parents</b>		
<b>8.1</b>	Describe the process for determining the program and placement of student with disabilities during IEP team meetings. Do discussions about placement begin with consideration of placement in general education with supplementary aids and services? What role, if any, do administrators have in determining the program and placement of students with disabilities?	
<b>8.3</b>	What information has your child's case manager provided to you about the supplementary aids and services available to your child in order for your child to be educated in the general education classroom?	
<b>8.2</b>	Does the district offer training to inform parents about placement options?	
<b>8.4</b>	What supports and services do you think would successfully support your child's placement in general education?	
<b>8.5</b>	What initiatives are in place in your school that demonstrate an inclusive school culture? How can that culture be enhanced?	
<b>8.6</b>	What opportunities are provided to students with disabilities to participate in extracurricular and nonacademic activities with children without disabilities?
