

## Venture Capital

As one of the nation's most active law firms in venture capital and startups (according to the Wall Street Journal), we're deeply committed to helping entrepreneurs and investors advance new technologies and business initiatives. In recent years, we've handled thousands of matters for startups, growth companies, and the venture capital and growth equity funds that invest in them. Although our venture capital work has proven successful across a broad spectrum of industries, we are most focused on technology and media companies. We started our **VentureCrush** programs to help deepen the relationships we and our clients have in the tech community. Our Tech Group lawyers teach at law schools and business schools, both in the San Francisco Bay Area and in New York, and publish regularly on tech and startups.
